

Exploring Connections

DELIVERING ESSENTIAL CARE IN NEUROLOGY

Up-skill your neurology practice with our series of live, interactive webcasts...
Increase your confidence in recognizing epileptic syndromes and providing appropriate diagnosis and management.

Led by **Dr Heather Angus-Leppan** of the Royal Free Hospital, London, UK, the programme is delivered by an international faculty of neurology experts.

Why join the programme?

- Targeted at international neurologists, trainees and primary care physicians with a special interest in neurology
- Delivered by a global faculty of neurology experts with a passion for education
- Free-to-access interactive sessions with opportunity to engage with top faculty
- On-demand content available soon after each live webcast

This activity is funded by an educational grant from UCB BioPharma SRL. UCB engaged IMP to develop the programme independently; UCB has no editorial input to the faculty or agenda.

Thursday 1st July 2021 - 18.00 - 19.30 (BST)
